

CORSA Marine Exhaust System Comparisons

Quick & Quiet	Quick & Quiet II	Quick & Quiet Plus	Captain's Call
Thru-hull exhaust only	A full time, non-switchable, thru-hull exhaust system	Switchable exhaust route either thru-prop or thru-hull	Switchable exhaust route either thru-prop or thru-hull
Two patented transom mounted ASR Silencer Tips and two ASR interior mufflers with a balance tube	Patented Silencer Tips with a pair of upper exhaust splitters connected to the lower wishbone and the exhaust riser	An electronically operated exhaust diverter used in conjunction with the same patented Silencer Tips as our Quick & Quiet II™ system, but with the added flexibility to switch the exhaust flow to fully silenced, thru-prop operation	An electronically operated exhaust diverter only
	Uses a non-selectable splitter tube	Switchable exhaust exits, either thru-prop or thru-hull	In-line mufflers and side exit exhaust optional
Designed to retrofit existing full time, thru-hull applications	Provides maximum exhaust flow	Provides maximum performance or minimum exhaust sound, at the touch of a button	Provides maximum performance or minimum exhaust sound, at the touch of a button

A Captain's Call™ is a solenoid operated exhaust diverter. It is used in our Quick & Quiet Plus™ systems and can be used with side exit exhaust systems.

All CORSA Performance exhaust systems are made from premium quality 316L stainless steel, and are backed by a three (3) year warranty, except for the Carek™ anti-surge valve, which is backed by a lifetime warranty.
